

As compact radiators turned through 90 degrees, **vertical radiators** offer all the benefits of compact radiators, including shapely design, high heating power and a wide range of colour options. In addition, vertical radiators are the optimal solution when space is limited, as they utilise the height of the room and save lateral space.

The benefit for you:
The perfect solutions for high-ceilinged rooms or areas where space is at a premium.

VERTICAL RADIATORS.

- The streamlined solution for room heating
- Excellent price/performance ratio
- Large range of colour options – see colour palette
