OUR CLAIM.

Leading the way in Europe

VOGEL&NOOT is Europe's leading technology partner. The company sets technical standards and its broad product portfolio encompasses the fields of radiators, underfloor heating and chimneys.

As a result of constant innovation in the area of energy efficiency and unique design concepts, **VOGEL&NOOT** products are enthusiastically received by planners and heating engineers, as well as by the users of the rooms which are heated.

VOGEL&NOOT's principles

Maximum energy efficiency

As a leading innovator, **VOGEL&NOOT** offers forward-looking heat emission technology for thermal comfort coupled with climate protection.

Fashionable heating design

As customisable heating systems with a unique surface design, the versatile **VOGEL&NOOT** designer radiators complement all modern living rooms.

Integral range & service

As a one-stop provider, **VOGEL&NOOT** not only guarantees a high-quality product range for optimal heat emission solutions, but also excellent advice and outstanding service.

heatingthroughinnovation.

The ${\bf Standard}\,$ model is a tube radiator in the classic style. It impresses thanks to its simple design with straight lines that provides, above all, superb possibilities for variations thanks to the large variety of colours, sizes, sections and columns available.

Standard with standard connection.

Standard with central valve connection.

Type	2-co	lumn	3-со	lumn	4-column			5-column				6-column

Width	6	3	10	01	139		177				215						

Advantage:

The **Twin** model integrates as standard a towel rail with an attachment welded on, as well as the appropriate wall fastening

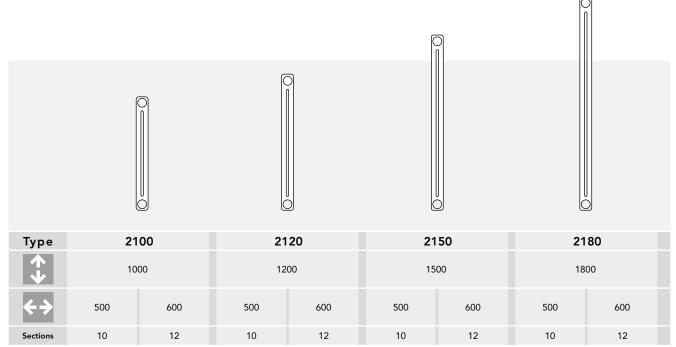

Simple, straight lines in the classic style are also the distinguishing features of the $\textbf{\textit{Twin}}\ \text{model}.$ The generous surfaces with the two-column design are also ideal in rooms with smaller space requirements.

Twin with towel rail as standard.

Data in mm.

Advantage:

LASERLINE ARCHITECTURE.

The **Architecture** model is testament to the fact that radiators not only provide heat, but also combine design and function. It is a modern tube radiator and bench/counter all rolled into one.

Architecture counter.

PRODUCT
DESCRIPTION &
DELIVERY.

VOGEL&NOOT Laserline tube radiators are highquality branded products that allow you to be creative with interior design, thanks to their elegant designs.

Laserline standard and central valve design

The product is supplied without attachments or connection material. Standard design with 4 x 1/2" IG lateral connections. Central valve design with the built-in, pre adjustable regulation valve with 5 x 1/2" IG connections.

Laserline Twin

The product is supplied complete with retaining brackets, wall consoles, attachment screws and dowels; a height-adjustable towel rail in the same colour as the radiator, with chromed brackets, is also included. The product is supplied with $3 \times 1/2$ " IG connections and $1 \times 1/2$ " vent valve.

Laserline Architecture

The product is supplied complete with the console and design set, the thermostat head (Oventrop Uni LH) without the support. The thermostat valve is already fitted. The design set is used for simple and durable

assembly and to cover the connections, with the option of attachment to the support on site. The product is supplied with $2 \times 1/2$ " IG connections and a 3/8" vent valve.

Additional equipment

In addition, an E-heating element can also be ordered for the **Laserline Twin** model. All **Laserline Twin** models that are fitted with an E heating element can also be used at times when heating is not required.

Operating conditions

The test pressure is 13 bar, the maximum operating pressure is 10 bar and the maximum operating temperature is 110 °C.

Surface treatment

High-quality, environmentally-friendly two-layer paintwork in accordance with DIN 55900, anodic dip priming with electrophoretic coating using water-soluble paint; electrostatic powder coating.

Subject to technical modifications!

Branded products of certified quality

VOGEL&NOOT offers reliable products that meet the highest quality standards during manufacture and operation. All of the quality and performance specifications of the panel radiators offered by **VOGEL&NOOT** are continuously tested and confirmed by recognised European institutes. They guarantee safety in connection with the highest heating performance and optimum product quality.
