

CONVECTORS & HEATING PANELS.

Schrotter/Cserni

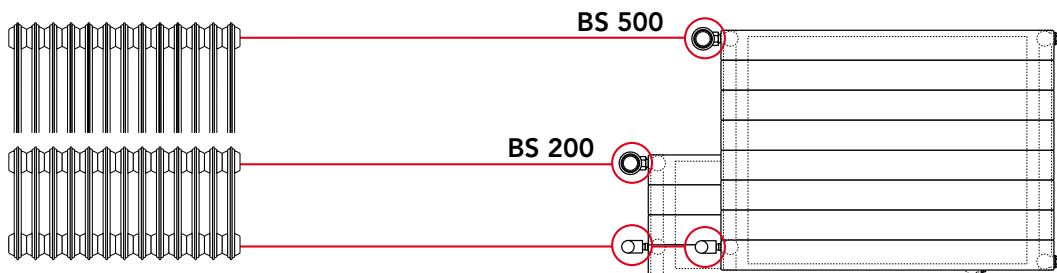

The **convectors and heating panels** for replacement show that a clear use of form and convincing functionality go hand in hand. They create a good quality ambience with a high level of comfort for your room.

The benefit to you:
Pure aesthetics blend seamlessly with functional features.

- No visible welded connections
- High-quality finish
- Rapid assembly brackets make the installation process more simple
- Very high level of heat output.

DIN-Gliederradiatoren				
 Boss spacing [mm]	Type [mm]	 Construction depth [mm]	 Construction height [mm]	Heat output [W/running metre] 90/70/20 °C
200	200/250	250	300	1540
